

BERTHOLD LEIBINGER
INNOVATIONSPREIS
2018

Call for
Applications and
Nominations

BERTHOLD LEIBINGER
STIFTUNG

Application / Nomination

Individuals and project groups worldwide with outstanding innovations in applied laser technology are eligible to send their application or be nominated. Submitted work must be completed and disclosure must not be restricted. At the time of application it should either be published or be free for publication.

For more details visit
www.leibinger-stiftung.de/laserprize.

Closing Date: March 1, 2018

The advancement and acknowledgment of outstanding development and scientific work on laser technology are one of the activities of the Berthold Leibinger Stiftung. Its innovationprize, awarded since the year 2000, shall underline the great importance of this fascinating and indispensable technology.

The Berthold Leibinger Stiftung was founded in 1992 as a nonprofit, private foundation, and its four main objectives are science, culture, church and charity.

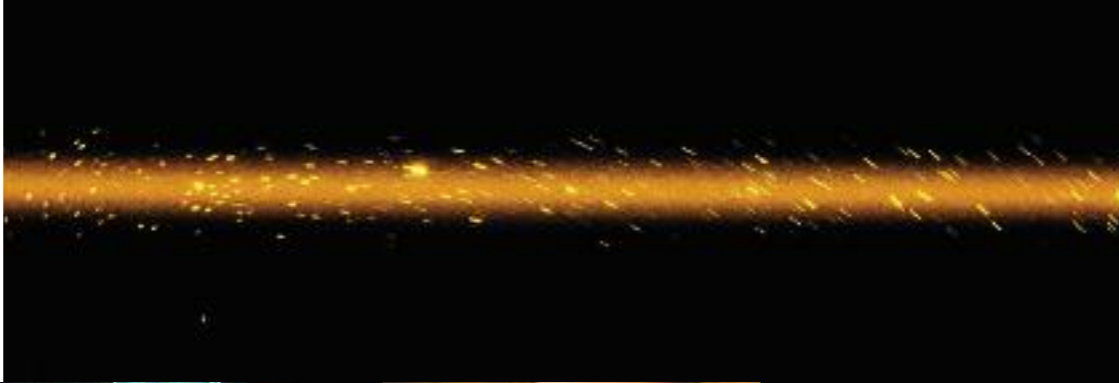

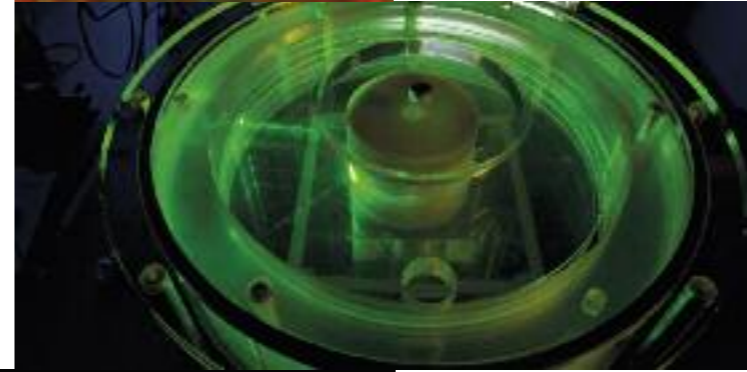

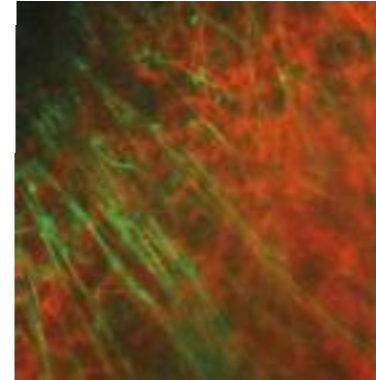

Subject

Laser light is used in a vast number of applications in many fields of our professional and private lives. It is used in health care and biotechnology, in science, metrology and sensing as well as in manufacturing from microlithography to heavy machinery or even in lighting. There are almost no limits to the application of tailored light. Still, it is a long way from an idea to a successful product. Processes and devices alike need to be reliable, safe and competitive.

The Berthold Leibinger Innovationspreis is awarded to innovators and entrepreneurs that take laser technology from ideas and research to the level of new product development. Innovations can be processes, systems or laser light sources without any restriction to the field of application.

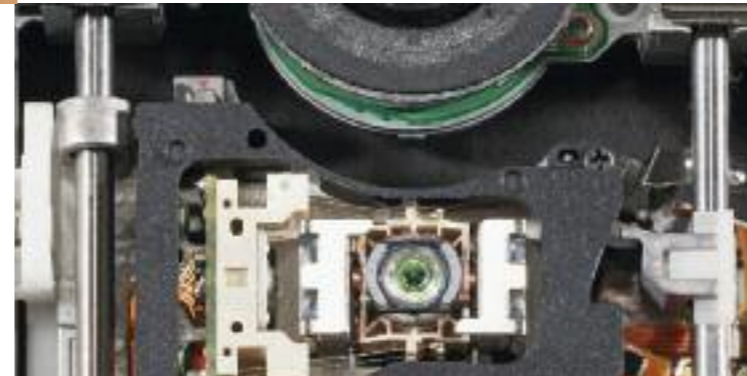

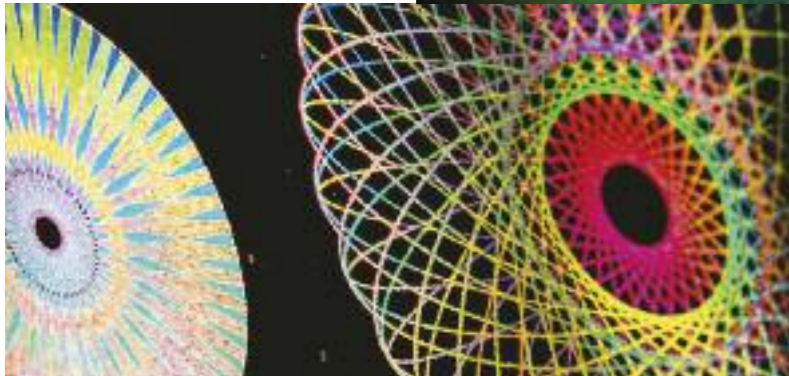

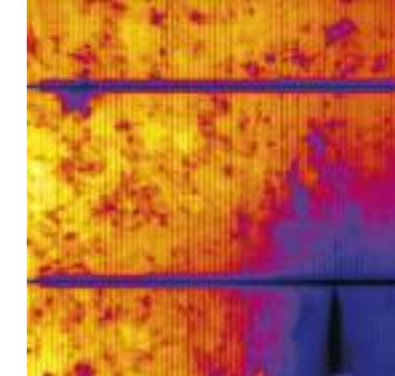

Prize Money

First Prize: 50,000 euros
Second Prize: 30,000 euros
Third Prize: 20,000 euros

Jury

Dr. Hermann Gerlinger
Prof. Dr. Qihuang Gong
Prof. Dr. Stefan W. Hell
Prof. Dr. Henning Kagermann
Prof. Dr. H. Jeffrey Kimble
Prof. Dr. Wolfgang Marquardt
Dr. Carsten M. Philipp
Prof. Dr. Katarina Svanberg
Prof. Dr. Otmar D. Wiestler
Prof. Dr. Michael Zäh
